

Garden ornament "Rooster Fritz"

€118.00

Product no.: IN-942179

"Some roosters believe that the sun rises because of them." The bon mot of the poet Theodor Fontane fits perfectly for this magnificent piece. And even if it doesn't make the sun rise, the appearance of a proud rooster livens up the garden atmosphere quite a bit.

With its naturalistic design, this eye-catching sculpture made of lacquered metal creates a focal point in the garden landscape. Size 68 x 50 x 18 cm (h/w/d). Weight 1.8 kg.
