

Sonja Edle von Hoessle: Sculpture "Loop 35 - Gold Edition" (2015)

€4,500.00

Product no.: IN-884427

Sonja Edle von Hoessle's "Infinite Loops" are created from precisely shaped steel parts that unfold in deep space and, depending on the angle of view, become shapeshifters that unfold a completely different effect each time. Since 2012, the sculpture "Infinite Loop V" has adorned the Würzburg cityscape. The steel sculpture shown here, with its gold-plated surface, is reminiscent of a filigree piece of jewellery.

Steel sculpture, 2015. 24-carat pure gold leaf gilding, primed with rust protection. Edition: 7 copies, numbered and signed on the certificate. Height 35 cm, width 50 cm, depth 30 cm.
