

Head of Aphrodite of Melos

€1,100.00

Product no.: IN-306650

This goddess of love, presumably created by Alexandros from Antioch, is an effective alteration of the Late Classical sublime model. The mouth and eyes have become an invitation, and thus she embodies the feminine ideal of Hellenism. Original: Musée du Louvre, Paris. Place of discovery: Melos. Hellenistic, around 150 BC.

Artistic marble. Height with pedestal 52 cm.
