Tense serenity: SIME's "Reading Woman".

The sculptural works of the artist, who is also known as a draughtsman, are preceded by numerous sketches in which he works on and varies his motif until it has assumed a "valid" outline. What distinguishes him in this process can be seen in an exemplary way with the "Reading Woman". The sculpture's structure and dynamics perfectly illustrate the "ambiguity" of the reading process: SIME's reader is somehow tensely engaged in her captivating reading and, yet, at the same moment, she is calmly at peace with herself.

"There is no bliss without books," says Arno Schmidt. But with them, SIME's reader seems to be telling the viewer, there is, even if only for a moment.
