

Necklace "Golden Bowl"

€268.00

Product no.: IN-948165

The six bowl-shaped elements of the pendant capture the light and reflect it, sometimes warm golden, sometimes cool silver, sometimes mysteriously dark - almost like the sun, the moon and the night. This extraordinary piece of jewellery can be combined very well.

Made from 925 sterling silver with gold-plated and oxidised elements. Stainless steel wire, length 45 cm, with bayonet catch.
