

Guillermo Forchino: Caricature "The Dentist", cast hand-painted

€390.00

Product no.: IN-701536

What's my line? - with the work of Guillermo Forchino. Because of his creations full of wit and irony, the Parisian artist Guillermo Forchino is one of the best-known cartoonists in France. He personally crafts his sculptures manually piece by piece from porcelain-like resin cast. The objects are then elaborately hand-painted, signed and individually numbered!

"The Dentist": "Done!" The badly aching wisdom tooth is now history! The dentist is visibly happy about the successful treatment. Height 40 cm.
