

Johann Robert Korn: Sculpture "Chimpanzee" (1896), stone cast version bronzed

€1,290.00

Product no.: IN-786674

Natural spectacle in a world-class quality: Johann Robert Korn's "Chimpanzee".

Korn combines the precise zoological view with a faint hint of one of the most important scientific themes of his time - Darwinism - and gives the chimpanzee an almost human, thoughtful facial expression. With this work, as in his numerous later works, the artist shows that his depictions of animals are characterised by a deep respect for the creature.

Edition in cast stone with bronzed surface. Limited edition of 499 copies, numbered and signed. With certificate. Size 28 x 34 x 24.5 cm (h/w/d), weight 14 kg. Exclusively at ars mundi.
