Kay:
Sculpture "Torso Giulia" (2017), bronze

€1,280.00

Product no.: IN-849195

With his work "Giulia", Kay once again proved to be a sculptor who, beyond his free works, has also mastered the stylistic elements of classical sculpture. The torso places itself unselfconsciously in the tradition of the great masters. Yet it is entirely contemporary since "Giulia" pays homage to the beauty of the female body without idealistically transfiguring it.
