Product no.: IN-897786

On the occasion of the 100th birthday of Erwin A. Schinzel: Sculpture "Waves" is available in two versions.

On 24 October 2019, Erwin A. Schinzel would have turned 100 years old. Throughout his life, Schinzel was considered a "classic" artist among sculptors. An artist who created works that are completely in the tradition of their art openly and undisguisedly inherits the greatness of their field and yet knows how to appear up-to-date. His works show the sovereignty of craftsmanship in which accuracy and perfection of representation are the highest standards of sculpture.

His sculptures primarily focus on one theme: the human being, and this in its undisguised beauty. These sculptures are an unbroken celebration of beauty, and to a certain extent, it is also the eye of the beholder that is celebrated here.

Sculpture "Waves":

She has just emerged from the waves. The power of the sun is drying her skin, while her hair is pinned up with an artfully tied hair ribbon. With her eyes closed, she listens to the sea. Schinzel's work thus appeals doubly to the viewer's senses: The visible and the audible are equally present.
