

**Paul Klee:**  
**Picture "Urban Composition with Yellow Windows" (1919),  
framed**

**€380.00**

**Product no.: IN-873834**

Although the work is clearly abstract, it contains elements of reality: urban elements such as a church and two windows with mullions and transoms are clearly recognisable. The colourful, mosaic-like composition also makes the picture appear like a colourful church window in the overall impression.
