

Volker Kühn: 3D Picture "The Lightness of Being III", framed

€680.00

Product no.: IN-943939

The popular miniature worlds by Volker Kühn are decorative and humorous invitations to reflect on life. In perfect balance, the elephant, a typical protagonist in the sculptor's oeuvre, balances three spheres of different sizes in the primary colours yellow, red and blue, reminding us how important it is to find one's own equilibrium.

Each 3D object is elaborately handcrafted, titled and signed by hand in pencil. In solid wood display case frame, glazed. Size 45 x 55 x 4 cm (h/w/d).

The Picture is titled in German "Die Leichtigkeit des Seins III".
