

Mats Jonasson: Glass decanter "Lucifer", black

€368.00

Product no.: IN-752251

In a first step, the artist Mats Jonasson moulds each item in plaster. Then he creates a hollow iron mould into which he pours high-quality crystal glass. The blank is then elaborately sandblasted and polished. Maleras Glassworks is a testimony to Jonasson's commitment to keeping design and production in the Swedish glassblowing village permanently, despite many alternative offers. His glass art is now world-famous among collectors. Decanter "Lucifer" black. Size 9 x 28 x 10 cm (h/w/d). Capacity 0.7 litres.
