Product no.: IN-715566.R1

Caspar David Friedrich was one of the most important painters of the Romantic period because of his landscape paintings. But this fame did not last - Friedrich was almost forgotten during his lifetime and was rediscovered in the 20th century. The focal interest was not only for his landscapes but also in an almost classic "seascape" such as the "Sailing Ship in the Fog": the three-master is driven with full sails across a turbulent, fog-shrouded sea.

Original: Oil on canvas, Municipal Art Collections, Chemnitz.
