

Fossil Prehistoric Bird Archaeopteryx

€418.00

Product no.: IN-308143

Stone witnesses of prehistoric times: At the time of the first flowering plants, when life began to soar, organisms in the vast lagoons of the Jurassic Sea were transformed into minerals, into naturally created works of art and stone witnesses of former communities of life. Their study provided the basis for evolutionary research. Our true to the original replicas of famous and unique fossils provide deep insights into the life of the primaeval world.

Original: Prehistoric, approx. 150 million years old, Museum für Naturkunde, Berlin.

The most beautiful and best-preserved prehistoric bird was excavated in Bavaria. Polymer ars mundi museum replica, cast by hand. The carefully created replica with limestone effect is a very decorative testimony of the time 150 million years ago. Size 37 x 46 cm, with suspension device. Weight approx. 10 kg.
