Product no.: IN-897969

Curiosity and courage: kittens. The life of a young cat is full of exciting experiences. The garden is big and adventures lurk everywhere. After all, the world wants to be conquered, and there is so much to discover. And so kittens keep their eyes open, jump around lively or devote themselves with great enthusiasm to anything that can be used as a toy. That is also the case with our life-size cat made of fine bronze.

With its paws tucked in, the cat watches calmly throughout a large part of the day in front of some absurd little hole, which is possibly the entrance of a mouse. Sculpture in bronze, cast using the Lost-Wax-Process, chiselled and patinated by hand. Size 20 x 8 x 21 cm (h/w/d). Weight approx. 1.7 kg.
