Friedensreich Hundertwasser: "Column Chandelier II"

€198.00

Product no.: IN-395894

In Hundertwasser's architectural philosophy, columns not only serve the function of support. These prominent stylistic elements of his architecture are like trees that have grown out of the ground. They have an individual character and identity. Hundertwasser's columns are similar, but none is the same.

Hundertwasser's "Column Chandeliers" were created based on this understanding. They radiate warmth and harmony that captivates the viewer. The "Column Chandelier" consists of three segments that can be combined or used as individual chandeliers. You can use them with candles, with tea lights or without any - as art objects alone. The variety of shapes and colours of the "Column Chandelier" encourages us to constantly change the "work". Thus the collector himself becomes an architect in Hundertwasser's world.

"Column Chandelier" consists of three segments: Size approx. 22 x 8 cm (h x Ø). Individual segments: Sizes from 5.6 cm to 10.6 cm (h). Produced in the "Königlich privilegierten Porzellanmanufaktur Tettau". Hand-painted with Hundertwasser spot colours. Fired 3 times at 1.200° Celsius with blast furnace polished gold in matt or shiny - 24-carat. Factory number: PM V column chandelier.
