"Venice's sun will prepare a gold in your hair..." Such Rilke verses may come to the mind of the lover of the lagoon city and its traditional art of living and loving when encountering Terèsa. The Venetian sculptor Tessaro, who specialised in athletic girls with taut physiques in dramatic positions, shows her here sleepily awakening from wild dreams to greet the new day, the ruffled bed sheet hinting at her mental excitement.

Carrara marble granules with bronze effect finish. Artist's signature on the statuette. Height 32 cm. Weight approx. 5.4 kg.
