Klaus Börner:
Wall object "SUMMER - The Tree that Falls Out of the Frame" - from "Seasons Cycle"

€290.00

Product no.: IN-889464

For his atmospheric compositions, Klaus Börner roams the quarries of northern Italy to hand-pick the right stones for his objects. The colour and grain of the slate stones, which he assembles piece by piece by hand, are perfectly matched to the motifs. He combines the rectangular slate panels with bronze and brass elements to create enchanting landscape impressions.

"The Tree that Falls Out of the Frame":
A breakwater washed by waves in a small bay by the Mediterranean Sea. A fine line marks the horizon and on the right is the tree falling out of the frame. Catalogue raisonné no. 487. Each object is a unique piece, signed by the artist. Size 15 x 20 x 2.5 cm (h/w/d). With suspension device.
