

ArchitectMade: Wooden figure "Duckling" - Design Hans Bolling

€79.00

Product no.: IN-844896

A timelessly beautiful, Scandinavian design classic, designed by architect Hans Bolling in 1953, made of oiled teak, from the ArchitectMade brand.

Hans Bolling's source of inspiration was an event in 1959 near the Danish capital Copenhagen, where a policeman let a family of ducks cross the road and thus stopped the traffic. A day later, the country's major dailies reported on it. Nature's idyll versus modernity.

Teak, oiled, handmade. Size 9 x 5 x 7 cm (w/h/d). The head of the duck is adjustable and can thus express the most diverse moods. Delivery in attractive gift packaging.
