Product no.: IN-882069

Moritz Götze is currently one of the most important representatives of German Pop Art. The characteristic features of his figurative and colour-intensive works are quotations, homages and references to motifs and visual language of works of art from past epochs. "I have many points of reference. Comic is definitely a point of reference. However, Pop Art and all these medieval paintings are other points of reference. (...) Even the gothic pictures. It's all very important to me."

Real gold and painting on enamel, 2018. Signed. Height: approx. 125 cm.
