

Luwagala: Garden ornament "Warthog" (large version)

€96.00

Product no.: IN-735242

The special garden dwellers: In Africa, art is often not created on prefabricated canvases and is made by purchased paint tubes. It is created from whatever was available to the artists at the time - the brothers Aron and Innocent Luwagala from Zimbabwe, for example, reach for sheet metal, screws, tubes and wires. With their exuberant imagination and almost unbelievable skill, they shape them into lifelike warthogs in their workshop - by hand.

Large warthog. Size 35 x 40 x 19 cm (w/h/d). Each piece is unique. Sizes and colours may vary.
