

Roman Johann Strobl: Sculpture "Venus", bronze version

€1,980.00

Product no.: IN-811469

In the magic of the moment: Roman Johann Strobl (born in 1951) draws his inspiration for the female nude from regret over transience. By creating forms that are resistant to change, he captures the beauty of the moment. The unmistakable classical training of the Italian school led the Austrian-born artist to a figurative virtuosity that he skilfully combines with a pleasant down-to-earthiness.
