

Margot Stöckl: Sculpture "The Thinker", bonded bronze version

€928.00

Product no.: IN-765758

The work of thinking: Margot Stöckl's character head "Der Denker".

"The Thinker" is less an anatomical study and more a picture of the strenuous activity of thinking. With his chin nestled in his hand and his eyes closed, he pursues his deep train of thought, his forehead furrowed by a "Denkefalte", which is the German word for "worry line" and can be literally translated as "thought wrinkle". An original, expressive work, whose jagged form leads to interesting shadow effects in sunlight as well as in artificial light.

Edition in bonded bronze. Limited to 199 copies, numbered and signed. Cast by hand with bronzed surface. Size 23 x 30 x 21 cm (w/h/d). Weight 9.84 kg.
