

Franz Marc: Sculpture "The Blue Horse", hand-painted cast version

€248.00

Product no.: IN-438546

The horse - Franz Marc's favourite motif - is a symbol of life par excellence. It connects past and future, heaven and earth. It stands powerfully and dynamically on the ground of reality and yet soars up into heavenly spheres. The colour blue symbolises the superior spiritual, freedom and infinity.

Sculpture after the original painting from 1911. Polymer cast, hand-poured and hand-painted. Size 12 x 25 x 22 cm (w/h/d).
