

Pearl necklace "Margarethe" - after Gustav Klimt

€110.00

Product no.: IN-941698

The decorative and harmonious-looking spiral shape is just as typical of Gustav Klimt's paintings as a richly decorated background, mainly in gold. Inspired by the works of the Art Nouveau master, this piece of jewellery combines nobly shining black onyx beads with gold-plated jewellery elements. Length approx. 45 cm. With lobster clasp.
