

Necklace "Monet Reflections"

€210.00

Product no.: IN-887022

The famous water lily paintings by Claude Monet are unforgettably beautiful. In his self-created garden in Giverny, he experimented with changing light conditions and captured above all the reflections of the sun on the water of the water lily ponds.

Made of partially gold-plated 925 sterling silver, this piece of jewellery with amethyst and moonstones glittering in various shades imitates the reflections on the water's surface. Size pendant 2 x 4 cm (h/w). Chain length 41 cm.
