Bruno Bruni:
Sculpture "Leda col cigno", bronze

€3,380.00

Product no.: IN-000890

Originally the theme of Leda emerged from Greek mythology and has been taken up in the visual arts since antiquity. Bruno Bruni dealt with it several times in his oeuvre. In this bronze sculpture, he shows the perfect fusion of human shape and animal body: in a surrealistic manner, the slender, elongated girl's body is harmoniously transformed into a long, curved swan's neck.

Bronze sculpture, on a pedestal of Carrara marble. Cast using the Lost-Wax-Process. Limited edition of 1,000 copies, numbered and signed. Height with pedestal 56 cm, weight 6.5 kg.
