Bruno Bruni's masterpiece "La Riposata" delights with the refinement with which the artist optimises the sculptural effect of his sculpture: The smoothness of the body and the pleating of her base form a contrast that mutually reinforces these contrasting effects. The dark background causes the body of Venus to shine goldenly.

Sculpture in fine bronze, cast by hand using the Lost-Wax-Process. Patinated and partially polished. On a bed of polymer bonded bronze. Limited world edition 290 copies, numbered and signed. Length of the sculpture 53 cm, weight approx. 11 kg.
