

Set of 2 garden sculptures "Grey Heron Couple", bronze

€648.00

Product no.: IN-689322

The slender and imposing stork birds, with their long neck and beak spears, search for prey on their long legs. These life-size sculptures are eye-catcher in the water or the meadow.

Both objects are made of fine bronze, cast using the Lost-Wax-Process, patinated antique green. Grey heron female: Height 53 cm. Grey heron male: Height 56 cm. Small deviations in size are signs of pure handwork. Grey heron couple as a set.
