One of the artist's main themes is seascapes. Constantly changing and transient, and always just snapshots. Nevertheless, the paintings are symbols of timelessness and imperishableness. They convey both calmness and movement.

Her series on the theme "Ocean of Desire - An Ocean Full of Wishes" shows nature in various dimensions. The artist only shows excerpts to give the viewer space to make personal additions. Due to the accentuated application of paint, the spraying white sea spray seems to escape from the picture. The horizontal lines of the sea surface refract against the verticals of the shoreline, drawing the viewer into the emerging dynamics of the picture.

Original painting 2019, signed. Acrylic on canvas, stretched on stretcher frame. Size 25 x 50 cm (h/w).
