Ottmar Hörl:
Sculpture "Karl Marx", version in signal red

€500.00

Product no.: IN-896721

Installation project 2013 with 500 Karl Marx figures on the 195th birthday of Karl Marx on Porta-Nigra-Platz and Simeonstiftplatz Trier.

The sculptural project opens up a novel and outstanding way of meeting the man who was born in Trier and has come to be known the world over. Based on humour, subtlety, irony and great respect, a monument is erected to Karl Marx, to be visible in Trier for several weeks and permitting very personal access to this great 19th-century polymath.
The sculptural project motivates people to consider Karl Marx as a character as well as his oeuvre. To this very day, his portrait has been an icon of critical thought that is universally recognised as a symbol of protest and resistance.

Art object made of weatherproof, unbreakable and non-toxic plastic in rotational moulding process in Germany. All ingredients come from Germany and are subject to constant quality control. Version in signal red. Limited edition 195 copies, unsigned. With embossing HÖRL. Size 100 x 35 x 21 cm (h/w/d). Weight approx. 3.6 kg.
