

Klaus Börner:
Wall object "Italy Journey II"

€290.00

Product no.: IN-714604

There are only a few elements that Klaus Börner brings together in his unmistakable pictorial object - the sun, a tree, and a distant copse. And yet he succeeds in precisely depicting the character of a landscape with minimalist charm.

The trained goldsmith and sculptor works semi-sculptural elements of patinated bronze into a finely structured slate slab, which gives the object an astonishing spatial depth and, at the same time, as colour composition, captures the evening light of a progressing sunset most impressively. The colouring of the sun was based on a snakeskin jasper from the artist's collection.

Wall object made of slate and bronze. Unique piece, signed by the artist. Size 20 x 15 cm. Weight approx. 2.5 kg. With suspension device. Catalogue raisonné no. 450.
